

BIOGRAPHICAL STATEMENT

Sean O'Sullivan

Sean O'Sullivan is the managing director of Avego, a 57-person high-tech firm. Avego has developed "Shared Transport" technology to enable real-time ridesharing and for their "Futurefleet" product line for in-vehicle transport management and ticketing. Before Avego, Sean began and led an investment management organization, an international infrastructure company, and a software development company. He has a Masters of Fine Arts in cinema and television and a Bachelor of Science in electrical engineering.
